Profile

Passionate and detail-oriented Full-Stack Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js), with strong expertise in API integration, database management, and responsive UI/UX design. Skilled in building scalable, high-performance web applications from concept to deployment. Adept at collaborating with cross-functional teams to deliver user-focused solutions, and currently seeking an opportunity to leverage my full-stack expertise in a dynamic, growth-oriented environment.

Professional Experience

React Developer, *Edsom Fintech Pvt Ltd*   08/2024 – present
                                                                                          Pune

- **VL Nidhi (vlnidhi.com)**: Developed core banking modules (**fund transfers (NEFT/RTGS/IMPS)**, Loan module, Share Certificate); integrated **YesBank APIs**, payout limits, Excel/PDF export, and **role-based access**, and improved API efficiency across modules.
- **Fina MSCCS (finamsccs.com ⧉)**: Built a digital co-operative banking platform using React.js + MUI; implemented **savings/loan** modules, **fund transfers (NEFT/RTGS/IMPS)**, member dashboard, and **loan calculators**. Integrated multiple APIs and optimized performance for faster load and smoother user experience.
- **iPaisa (ipaisa.co.in)**: Created a **flight booking** and B2B fintech portal, PayIn/PayOut gateway, and enhanced UX and performance.
- **HRMS (hrms.ipaisa.co.in)**: Designed HRMS for attendance, payroll, and leaves using lazy loading, **Formik**, and **Redux**; optimized with **memoization and reusable components**.

MERN Stack Intern, *Humancloud Technologies Pvt Ltd*   06/2024 – 08/2024
Property Bulls   Pune
Full-Stack Real Estate Platform

- **Dynamic Frontend**: Developed a modern, responsive UI using **Next.js**, **React**, and **TypeScript** for seamless user experience.
- **Secure Backend**: Implemented backend services with **Node.js**, **PostgreSQL**, and **TypeORM** for robust and secure data management.
- **Advanced Filtering**: Enabled smart filters by **location**, **price range**, and **property features** to enhance search experience.
- **API Integration**: Integrated RESTful APIs using **Axios** and handled global state with **Redux Toolkit**.
- **Mobile-First Design**: Optimized the platform for **cross-device compatibility**, ensuring smooth UX on both desktop and mobile.
- **Performance Focused**: Employed best practices for **code splitting, lazy loading**, and API caching to enhance performance.

Skills

React.js	React Native
Javascript	HTML/CSS
Node.js	Express.js
MySQL	Git & Github
Linux (Ubuntu)	Material UI
Typescript	Next-js
Redux	Tailwind CSS
PostgreSQL	Prisma ORM
Type ORM	Core Java
Microservices using express.js	

Projects

iPhone Store

eCommerce Web Application | https://github.com/ankit-kumar-it/iphone-Store ⍐

- Built a full-stack eCommerce website using **MERN stack** with **MySQL** as the database.
- Implemented **JWT authentication** for secure user login and route protection.
- Used **Redux** for efficient state management across the app.
- Enabled users to **browse iPhones, add to cart**, and **place orders** seamlessly.
- Designed a **responsive UI** for smooth experience on desktop and mobile.

Online Jewellery Shopping

https://github.com/DMC-Ankit-Kumar/OnlineJewelleryShopping ⍐

- Developed an online shopping cart system using **MERN stack** for browsing and purchasing **jewellery products**.
- Implemented separate **Admin** and **User panels** for product management and user shopping flow.
- Enabled features like **product listing, cart management**, and **order placement**.
- Integrated secure **user login** and session handling.
- Designed a **responsive UI** to ensure accessibility across all devices.

System Optimizer

- The project was a desktop based application which is built on **Eclipse** IDE using **Core Java** and **MySQL workbench**. This helps our PC to run smoother, deletes the temp file and duplicate files.
